09				
10				

Application Form (English)

Intention Survey

There is a possibility that AIAV will offer a job for such as collaborative projects with educational institutions, the local community and so on. Whether or not there is an offer depends on the period of stay and contents. It is not asked for all applicants. It is not done for all applicants.

The content of the job will be decided after discussions between the two parties. AIAV will cover the cost of the job and pay a reward. In addition, the period of stay for the job is not included in the number of days you can stay by the Fellowship Program. (e.g. 1 month stay for AiR + 3 days stay required for business = 33 days in total)

(1) If you receive an offer a job from AIAV, can you take up that?

- Yes, I'm interested in the job.
- No, I'm not available.

(2) For those who selected "Yes" in the previous question, please write details below with references (e.g. photo, video, flyer, report) if you have any experiences with such as workshop, talk or other collaborative project.
